

# Powerful Collaboration Unified Communications

## CISCO™ Hosted Phone Solutions

Get highly secure, high-quality, easy-to use wideband audio and comprehensive mission-critical VoIP communications. The Cisco IP Phone 8841 is ideal for knowledge workers and remote workers across industries and businesses of all sizes.

**Cisco's flexible commercial models can be tailored to fit micro, SMB and large enterprises.**

- ✓ **Mobility:** UC services are available across mobile devices, making on-the-go workers more accessible and productive. Mobile phones, tablets and laptops can perform same functionality as desk phones.
- ✓ **Instant Messaging & Presence:** Enables users to communicate in real time.
- ✓ **Conferencing & Collaboration:** Users can quickly and easily set up their own virtual meeting rooms for on-demand and scheduled conferencing and collaboration sessions.

### Voice Collaboration for All Users

Enjoy superior voice collaboration at your desk regardless of location.

### Video Data Sheet

Deliver affordable, high-quality voice communications to your employees.
